PROBLEM STATEMENT

Accessing Government Schemes & Compliance is Harder Than It Should Be

Fragmented Scheme Discovery

Government schemes are spread across multiple portals, making it difficult for users to find benefits they are actually eligible for.

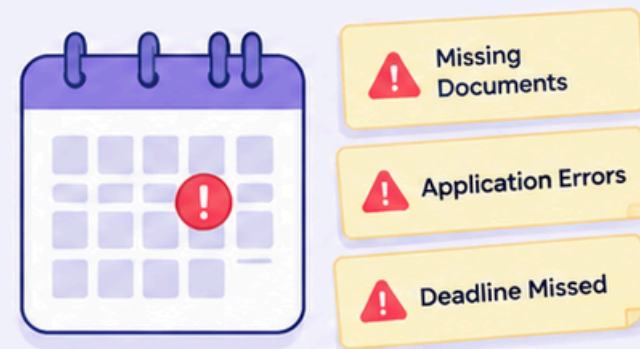

Complex Eligibility & Compliance

Complicated eligibility rules, documentation and compliance requirements lead to confusion and application errors.

Difficult Application & Tracking

Users struggle with lengthy application processes, missing documents, deadlines and tracking the status of schemes.

PROPOSED SOLUTION

*One platform.
No confusion.
Only clarity*

AI & Automation Focus

Data Collection

Aggregates scheme data from myScheme APIs and other government sources.

Smart Matching Engine

Rule-based engine evaluates user profile against scheme criteria for eligibility.

Personalized Advisor (AI)

Gemini AI analyzes eligible schemes and user profile to generate personalized recommendations.

Document Intelligence (OCR)

Extracts text from uploaded documents to auto-verify and reduce user effort.

AI Assistant (Chatbot)

RAG-powered chatbot answers user queries using official scheme information.

Execution & Monitoring

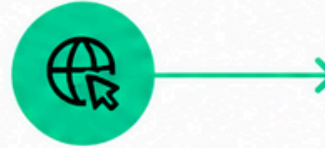

Scheme Database

Structured and updated repository of schemes, eligibility, benefits, documents, and processes.

Eligibility Results

List of eligible schemes with reasons, unverified criteria, and next steps for the user.

Actionable Guidance

Clear recommendations with priority, benefits, documents required, and application process.

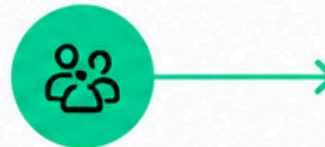

Reminders & Alerts

Deadline reminders, status updates, and important notifications for applications.

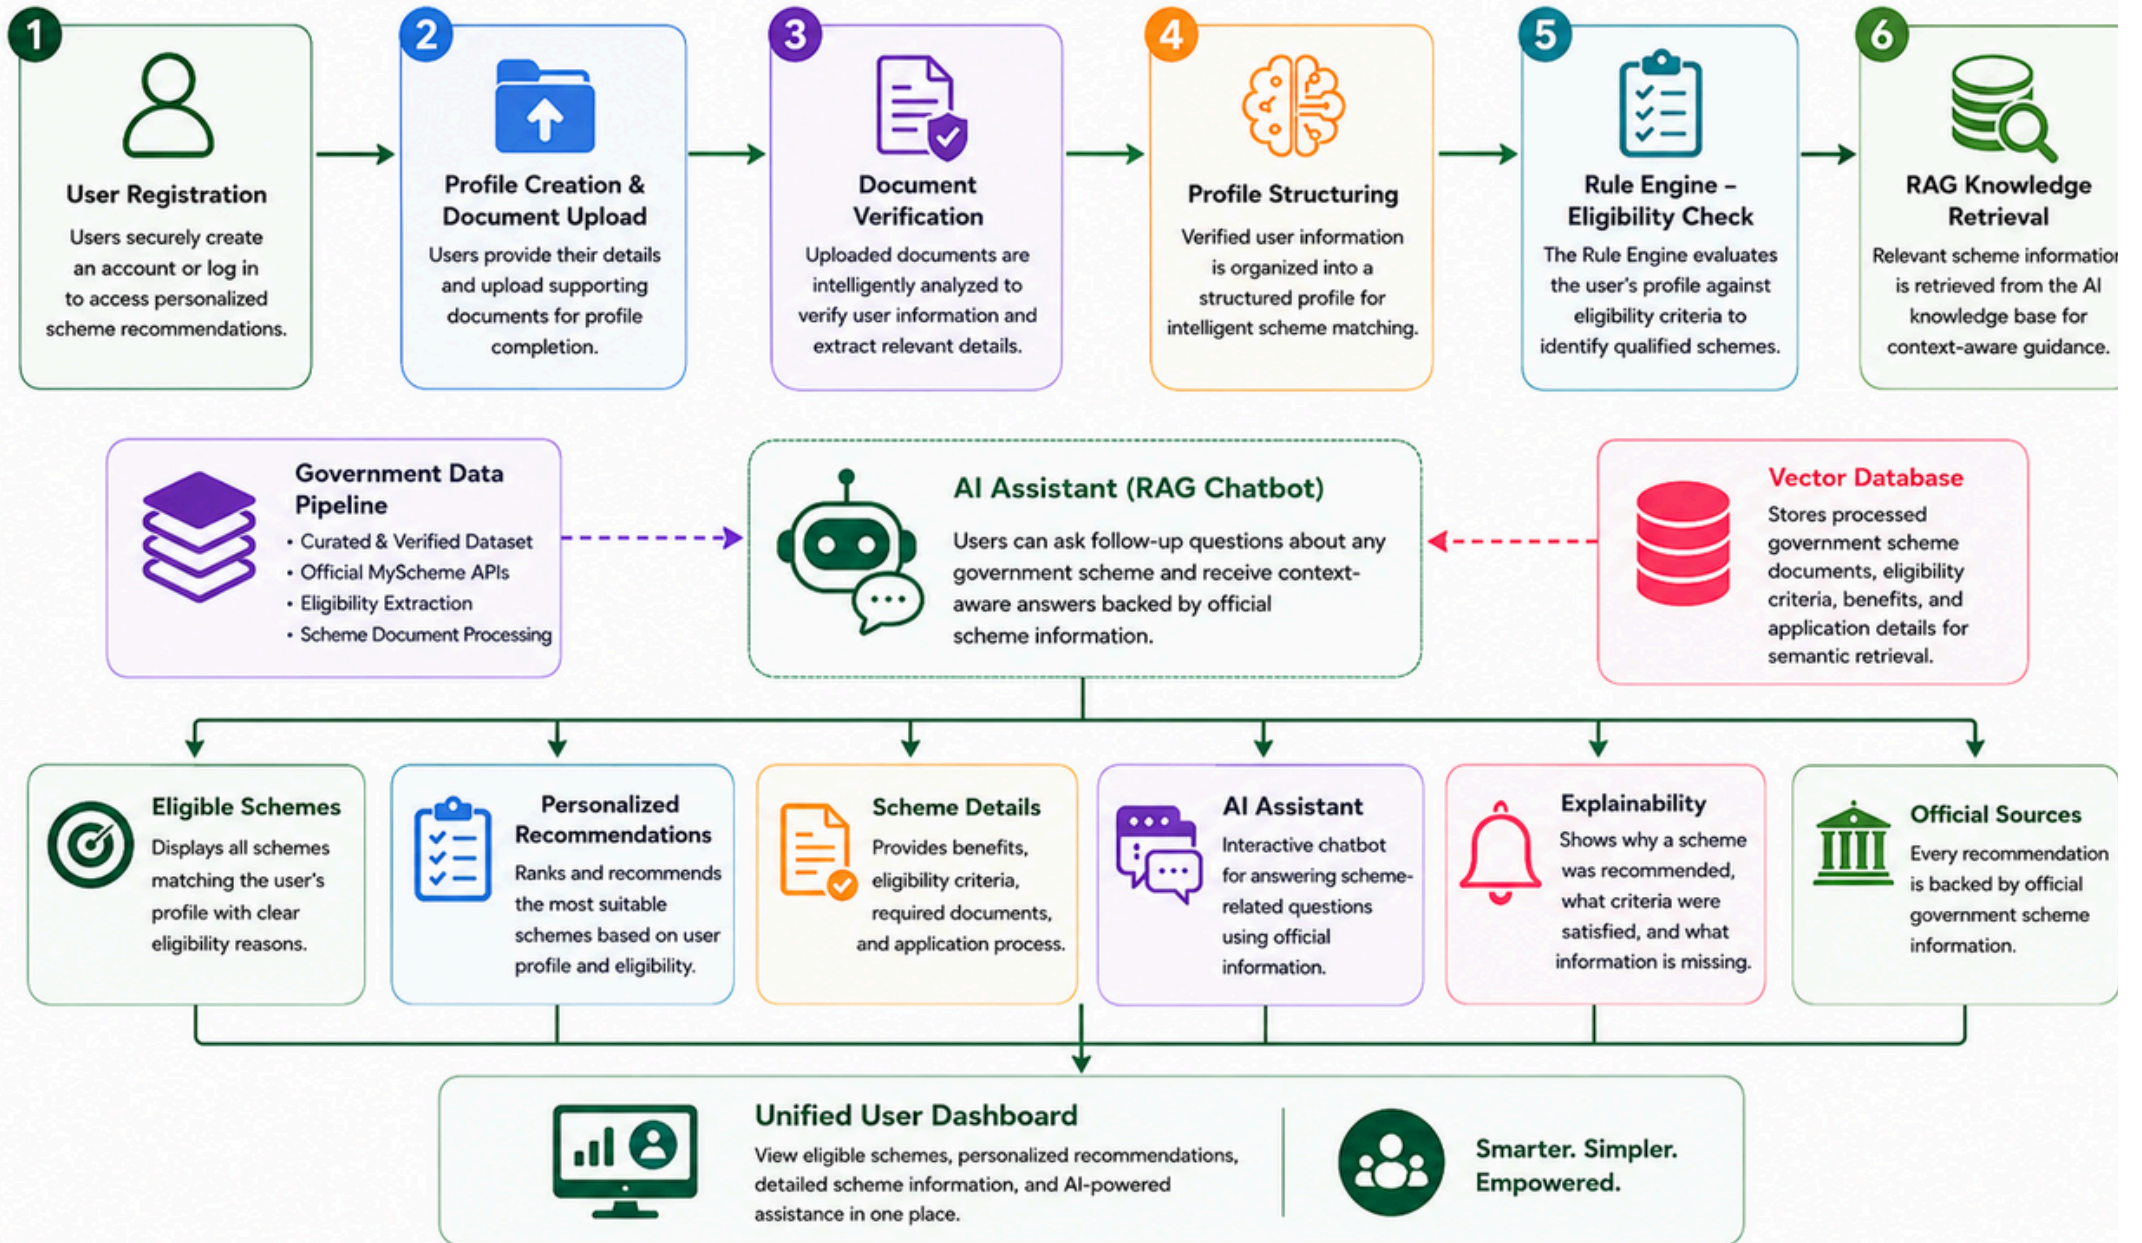

User Support & Engagement

Real-time assistance, query resolution, and complete application support in one place.

04 Personalized AI Guidance

ADVISOR RECOMMENDATION

Personalised guidance

As an MSME, your priority should depend on your current business stage and financial needs. Based on the schemes provided, here are three recommendations:

1 Bank Loan Processing Fee Reimbursement Scheme

Why: Helps reduce cost during loan processing.

2 Intellectual Property Right (IPR) Scheme

Why: Valuable for innovation & protection.

3 International Cooperation Scheme – Capacity Building of First Time MSE Exporters

Why: Great for expanding globally.

WHAT SETS US APART?

One Platform. Complete Government Scheme Intelligence.

■ SMART ELIGIBILITY ENGINE

Instead of keyword search, our rule engine evaluates the user's complete profile against official eligibility criteria to identify only genuinely applicable schemes.

■ EXPLAINABLE DECISION MAKING

Every recommendation includes eligibility reasons, missing information, and official evidence—eliminating black-box AI decisions.

■ AI-POWERED PERSONALIZED GUIDANCE

Gemini AI analyzes eligible schemes and generates human-friendly recommendations, explaining which scheme to prioritize and why.

■ SCHEME-SPECIFIC AI ASSISTANT

Unlike generic chatbots, users can ask questions about a specific scheme and receive accurate answers from official government documents using RAG.

BENEFITS & IMPACT

Empowering Citizens. Simplifying Government. Creating **Real Impact**.

01. FASTER SCHEME DISCOVERY

Users find relevant government schemes quickly based on their unique profile.

02. PERSONALIZED AI RECOMMENDATIONS

AI analyzes eligibility criteria and user data to deliver highly relevant scheme matches.

03. EXPLAINABLE & TRANSPARENT AI

Understand why you qualify (or don't) with clear evidence and missing criteria.

04. OFFICIAL SOURCE-BACKED GUIDANCE

Get accurate information, documents, and next steps directly from official government sources.

BETTER ACCESS

Citizens find and access the right schemes easily, regardless of location or background.

SAVE TIME

Faster applications and reduced paperwork through streamlined digital workflows.

HIGHER IMPACT

Improved utilization of government schemes leads to better outcomes for individuals & MSMEs.

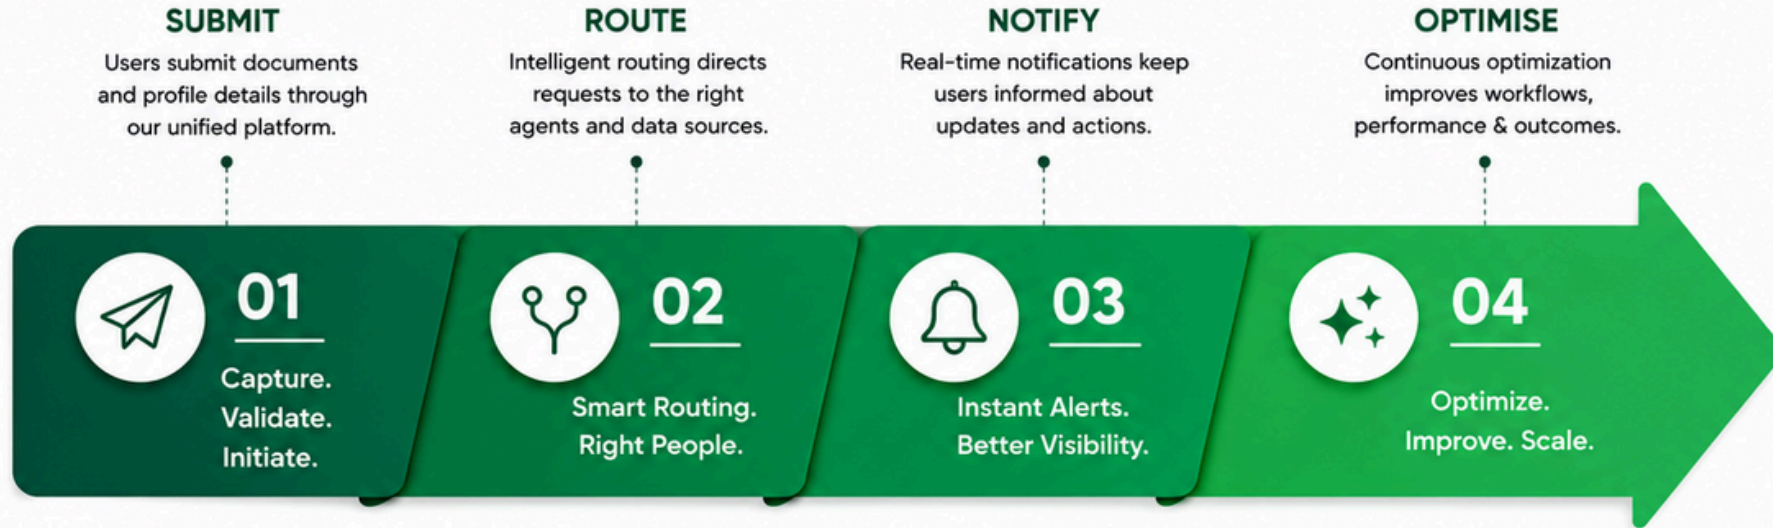

ACCURATE & RELIABLE

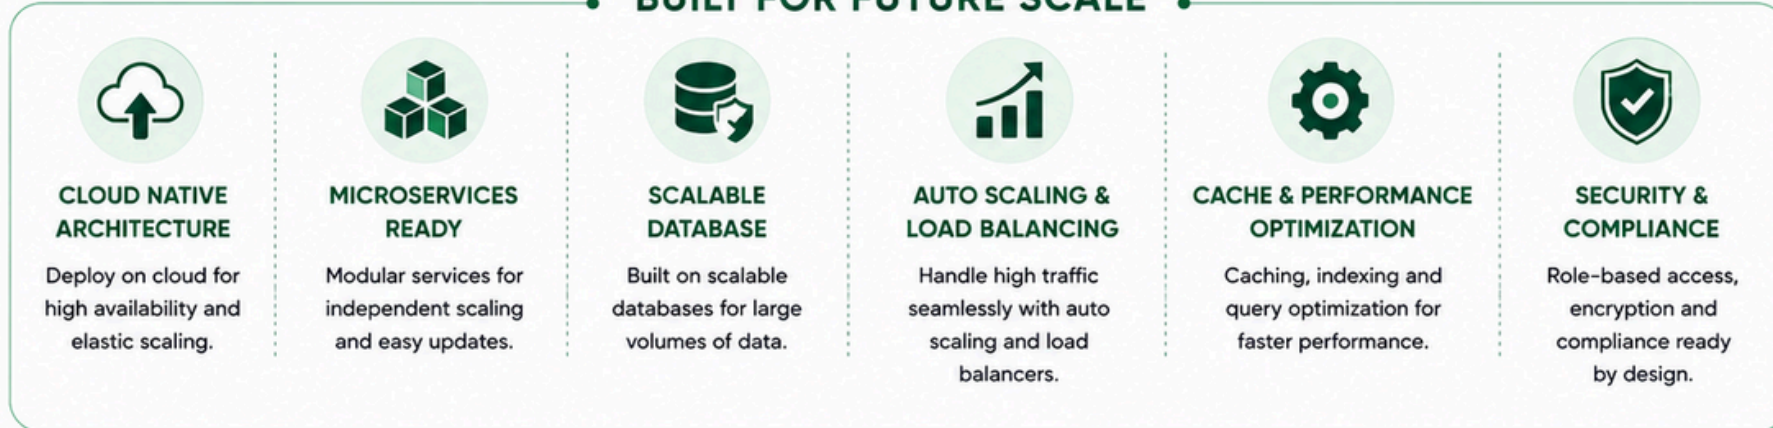

AI-powered accuracy ensures trustworthy recommendations and up-to-date data.

SCALABILITY

Built to Scale. Designed for Growth. Ready for the **Future**.

BUILT FOR FUTURE SCALE

GROW WITH IMPACT

From a single user to millions, creating measurable impact across India.

MORE USERS. MORE DATA. MORE VALUE.

Scalable today, future-ready tomorrow.

FUTURE READY INTEGRATIONS

Easily integrate with new systems, APIs, and emerging technologies.
